At Ebor MAT we have been working with Childcare Bookings for Schools since 2022, and the experience has been extremely positive for all stakeholders within the Trust. We have a range of academies, from small rural settings to larger schools in cities. In each case, Childcare Bookings' service has made a really positive difference.

At Academy level, school administration teams and Wraparound club staff have appreciated the reduction in workload, the simplicity of the booking system, and the professionalism of Childcare Bookings' administrators. At a Trust level, I have been delighted with the reduction in workload for the school staff, but also the increased revenue generated by the service. In some of our schools our budgets are as much as £25,000 better off than prior to working with the Childcare Bookings team.

I would have no hesitation in recommending Childcare Bookings for Schools as a partner for Trusts who want to increase their budgets & free up administrative capacity. Schools & Trusts are welcome to contact me for a reference.
